

PhD Course in Biosciences

Coordinator: Prof. Ildikò Szabò

Progress reports 2017, XXXI – XXXII cycle

September 11th

Room G mezzanine
Polo Vallisneri

Curriculum: Genetics, Genomics and Bioinformatics

| | | |
|-------|----------------------|---|
| 9:30 | Andrea BINATTI | Cancer genomics: new tools applied to solid and hematologic malignancies. |
| 9:50 | Margherita FERRARINI | Prediction of functional effects of nucleotide variants in coding and non-coding regions. |
| 10:10 | Laura MARTORANO | Investigation of mpv17 role in zebrafish model. |

| | | |
|-------|--------------------|--|
| 14:30 | Giuseppe BENVENUTO | Identification of potential coding and non-coding biomarkers associated to chemotherapy resistance in HGS-EOC. |
| 14:50 | Lisa BUSON | Non-coding RNAs involved in the specification of muscle fibers. |
| 15:10 | Ilaria GREGORIO | Study on the role of collagen 6 in murine central nervous system. |
