PhD Programme in Biosciences:

NEURODEGENERATION LECTURE SERIES 2024

13/02

Gabriella Viero

14:00
AULA MAGNA

CNR Trento

“The power of positional sequencing unravels the role of ribosome heterogeneity in disease: implications for Spinal Muscular Atrophy”

28/02

Erwan Bezard

14:00
AULA MAGNA

Université de Bordeaux, Institut des Maladies
Neurodégénératives

“Brain-spine interface for the improvement of walking behaviour in man”

08/04

Olga Corti

15:00
ROOM L

Research Director at Brain and Spine Institute (Institut du
Cerveau et de la Moelle épinière)

“Investigating crosstalk between alpha-synuclein-dependent pathology and mitochondrial dysfunction in Parkinson’s disease models”

 **Vallisneri building**
