

PhD Course in Biosciences

Coordinator: Prof. Ildikò Szabò

Progress reports 2018, XXXII cycle

September 10th

Aula I mezzanine

Polo Vallisneri

Curriculum: Cell Biology and Physiology

14:30	Enrico CORTESE	Interplay of plastids and endoplasmic reticulum in the plant calcium signalling network.
14:50	Federica DE LAZZARI	Exploring the physiological function of the protein DJ-1.
15:10	Alice KAGANOVICH	Contribution of glial cells to the pathogenic mechanisms behind LRRK2-associated Parkinson's disease.
