

PhD Programme in Biosciences: Stem Cell Lecture Series 2025

19/03 16:30 Aula Magna

Ina Sonnen

Hubrecht Institute, Netherlands

Signalling dynamics regulating
embryonic development and tissue homeostasis

6/06 14:00 Aula Magna

Yan Burelle

University of Ottawa

Mitochondrial Quality Control in Muscle Stem Cells:
A Determinant of Fate Decision and Tissue Repair Capacity

12/06 14:00 Aula Magna

Irene Faravelli

Harvard Medical School, USA

Brain organoids as avatars for human development and disease

16/07 16:30 Aula RN

Nicolas Rivron

IMBA – Institute of Molecular Biotechnology, Austria

Blastoids: discovering for the molecular determinants and
evolutionary innovations of human blastocyst implantation

Upcoming speakers

15/10 Alessandro Fiorenzano, National Research Council

Vallisneri building
